

**Cleaner Floors & Grout, Consistent Results at Each Location**

**Easy Cleaning/Training Procedures & Lower Labor Costs**

# Easy Green

## Degreaser/Cleaner

**ENVIROMENTALLY SAFE  
NEUTRAL pH, RESIDUE FREE  
BIODEGRADABLE, NON-TOXIC  
NO BUTYL CELLUSOLVE, NO PHOSPHATES**

### Cleaner Grout & Floors, Consistent Results

- Use once per day to clean, degrease and prevent polymerization (waxy build-up)
- During day use hot water to remove dirt – lower cleaning product costs
- Deck brush as necessary - lower labor cost, consistent results
- Leaves a residue free surface
- Mop heads last longer - doesn't get a greasy, solid buildup on strings

Easy Green penetrates deep into the tile and grout pores and then forces the grease, oil and dirt up and out onto the surface. In the wash bucket, it surrounds the grease/oil/dirt molecules and prevents them from accumulating and attaching to the mop head. This prevents the greasy mixture from being re-applied onto the floors, which become slippery and polymerized. Grout is cleaner and does not erode away. Cleaning results are consistent at all locations.

### Uses

- ✓ Floors – *All tiles, VCT, wood, concrete*
- ✓ Floor mats
- ✓ Hoods, vents, walls, ceiling tiles
- ✓ Grill stands & sides
- ✓ Grease traps
- ✓ No clogged drains

Daily Cleaning: 1 ounce per gallon hot water  
Mop floor using Easy Green and hot water mixture  
Deck brush as necessary
